The Bamboo Lounge Story

Welcome and thank you for supporting our training restaurant. Bamboo Lounge was founded by our mentors, kiwis Andrej and Karen Brummer and is now locally owned and managed by our original staff member; Koly Bokor from the Sida tribe.

All our staff are local ethnic minority people with a desire to learn and no prior knowledge of English language, making western food or drinks, or customer service.

They become our trainees, learning our in-house curriculum which begins with how to wash hands, dishes and naming ingredients in English, and progresses to making drinks, cooking and serving customers.

When you place your order, please speak slowly and clearly, pointing at the item you wish to order. Remember all the English your server knows was learned here at Bamboo Lounge, and all staff are at different stages of learning.

Our food and drinks are comprised mostly of homemade locally sourced products, combined with some other goodies imported from our nearest supermarket; 7 hours and an international border crossing away.

Bamboo Lounge Training Restaurant's profit supports Luang Namtha's 'Books in Schools' program. Most schools here only have 1 textbook per 3 students. So far we've donated over 2,800 textbooks to local students, and in time we hope to help massively improve the resources available in our local schools.

Thanks for helping us support the community here in Luang Namtha!

Menu Key:

GF: Gluten Free, **V:** Vegan
